Any other general comments

- Explain everything thoroughly and answered all my questions.

- *Very good doctor.*
- *Dr Singh and his team are incredibly caring, efficient and professional. I'm very lucky to have them looking after me!*
- *Dr Singh has helped so much. The improvement has been profound. Everyone has been so impressed with the care, including her GP.*
- *Treated my father and his family with compassion*
- *Excellent doctor, wish I had a doctor like this when I was younger to support me.*
- *Was a relief to speak to someone who is clearly a specialist*
- *Very knowledgeable and attentive*
- *Overall I am very happy with the excellent level of care provided.*
- *From a neurological/psychiatric standpoint, I would like to have been briefed more about what to expect during the treatment (potentially sent some links and further reading) and also to be checked over by a psychiatrist to ensure I'm psychologically eligible for the treatment. I feel like some stages of assessment were missed or lacking (so far)*
- *My Doctor made me feel so relaxed, comfortable and calm through the whole consultation, and explained everything in depth which I really appreciated. highly recommend Dr N Singh. Thank you so much Doctor Singh and your team.*
- *Dr Singh was such a great help. His spiritual background really adds on an extra safe space for me. The process with my prescription went super smoothly. Couldn't have asked for a better situation. ??*
- *I first started with Dr Singh when I was in a very unstable and vulnerable place. His caring and listening approach meant that I was able to engage with him from the start. His guidance since has enabled me to stop using other prescription medication, use more oil than flower and vape instead of smoking the flower. Overall I cannot recommend him highly enough. His care has made a real difference to my life.*
- *Dr Singh is just amazing, I can't speak too highly of him. He has turned what appeared to be a hopeless case, into a life full of meaning and positivity.*
- *Dr Singh's kind professional manner made it easy to talk to him from the start. I feel safe with him and my conditions have improved greatly through his care. He listens very well and has extensive knowledge. I have no hesitation in recommending Dr Singh.*
- *D was listened to throughout the appointment.*
- *I am pleased to highly recommend Dr. Neeraj Singh (and I have done to friends and colleagues alike on multiple occasions!). Dr. Singh is not only exceptionally knowledgeable and a leader in his clinical field, but he is also incredibly personable and caring. His expertise and dedication to patient care are evident in every interaction. Dr. Singh has consistently gone above and beyond to ensure that I have received the best possible treatment and support both from him and the non clinical team. His ability to connect with patients on a social and personal level, combined with his clinical acumen, makes him an outstanding physician and a trusted thought leader within Psychiatry.*
- *The new patient form is a bit small on a standard smartphone. I managed ok but I could imagine it would be difficult for anyone with impaired sight or dexterity.*
- *Highly professional and friendly.*
- *Thank you Dr Singh. I Appreciate all you have done for me!*

About the scoring system

The average is to be used as a guide only and depends on many factors.

If your survey scores do not match those of the peer scores it does not mean that your survey is below average. Scores

can easily be skewed by one or two patients marking differently to the rest. Non-clinical staff appear more likely to give an answer as average if they don't really feel able to assess - for example in clinical practice.
